12. Role SOPs, Spreadsheet Specs & FAQ	14

Part I: System Overview & Permissions

1. System Architecture & Objectives

The **DC Kubwa Workforce Management System** is an automated enterprise bot infrastructure designed to streamline church workforce communications, member records, duty rosters, approval workflows, and broadcast notifications.

1

Database & Profiles

Tracks active workers, department/unit assignments, marital status, and leadership credentials (HOD/Unit Head/Admin).

2

Media Broadcast Engine

Dispatches text, photos, PDFs & voice notes to units, departments, church-wide, or custom groups.

3

Member Search

Provides fast, case-insensitive search by Name, Phone, Unit, Department, or Role within leadership boundaries.

4

Data Protection

Prevents duplicate registrations by phone number and manages moderation queues.

2. Complete Role Permissions Matrix

COMMAND / FEATURE	ADMIN	HOD	UNIT HEAD	WORKER	GUEST
Profile, Duty Schedule, Status	✓ Full	✓ Full	✓ Full	✓ Own Dept	✗ Prompt
Case-Insensitive Member Search (search)	✓ All Depts	✓ Own Dept	✓ Own Unit	✗ Denied	✗ Denied
View Member Roster (members)	✓ All Depts	✓ Own Dept	✓ Own Unit	✗ Denied	✗ Denied
Submit Worker Registration Form	✓ Admin Mode	✓ View	✓ View	✓ View	✓ Submit
Approve/Reject Pending Registrations	✓ All Depts	✓ Own Dept	✓ Own Unit	✗ Denied	✗ Denied

System Analytics (#stats) & Birthday Scan	✓ Exclusive	✗ Denied	✗ Denied	✗ Denied	✗ Denied

Part II: Registration & Member Search

3. WhatsApp Onboarding Status & Policy

Notice: Onboarding via WhatsApp is Disabled

Direct self-service profile claiming and device linking via WhatsApp has been disabled. If an unregistered user or guest sends `onboard`, `claim`, `link`, `verify`, or `change device`, the bot responds with the disabled notice and instructs them to use `register` or contact their HOD/Admin.

WhatsApp • Onboarding Attempt Response

Command: `onboard` / `link` / `verify`

ONBOARDING VIA WHATSAPP IS DISABLED

Direct profile onboarding and device claiming via WhatsApp has been disabled.

- ***New to workforce?*** Type `*register*` or `*template*` to fill out the official worker registration form.
- ***Already registered?*** If your profile is not linked or you changed phone numbers, please contact your Head of Department (HOD) or Church Administrator.

Type `*menu*` to return to the main menu.

4. Strict Duplicate Registration Rejection

When a user submits a worker registration form, the system performs validation checks to eliminate duplicate entries:

- **Active Worker Match:** If the submitted phone number already belongs to an active church worker, the registration is **instantly rejected**, showing the existing worker's name, department, unit, and role.
- **Pending Application Match:** If a registration request for that phone number is already pending review with an HOD, the applicant is notified of their pending status.

WhatsApp • Duplicate Registration Rejection

✖ *REGISTRATION REJECTED: PHONE ALREADY REGISTERED*

A church worker record already exists with the phone number *08012345678*:

- *Full Name:* Brother David Eze
- *Department:* MEDIA (Sound)
- *Role:* Member
- *Status:* Active ✓

💡 *Note:* If you need to update your details or change departments, please contact your Head of Department (HOD) or Church Administrator.

Type *menu* to return to the main menu.

5. Case-Insensitive Member Search for Leaders

Admins, HODs, and Unit Heads can search for workforce members. The search is **100% case-insensitive** and matches across **Name, Phone Number, Unit, Role, Department, and Address**.

WhatsApp • Member Search Output

Command: search sound (or SEARCH SOUND / Search Sound)

🔍 *SEARCH RESULTS – MEDIA DEPARTMENT (2 found)*

1. DAVID EZE [👑 Unit Head]
• *Phone:* 08012345678
• *Dept:* MEDIA | Unit: *Sound*
• *Role:* Sound Lead
• *DLI:* Yes | *DCA:* Yes

2. EMMANUEL OKAFOR [Member]
• *Phone:* 08099887766
• *Dept:* MEDIA | Unit: *Sound*
• *Role:* Member
• *DLI:* Yes | *DCA:* No

Type *menu* to return to the main menu.

Part III: Multi-Target Broadcast Engine

6. Text & Media Broadcast System

The workforce bot contains a broadcast engine capable of sending plain text, images, flyer documents, audio/voice notes, and video highlights to targeted workforce groups.

Supported Broadcast Scopes:

BROADCAST COMMAND	ALLOWED ROLES	TARGET RECIPIENTS	MEDIA SUPPORT
<code>broadcast unit</code> <code><message></code>	UNIT HEAD HOD ADMIN	All active workers in the sender's unit.	✓ Photos, PDFs, Audio, Video
<code>broadcast dept</code> <code><message></code>	HOD ADMIN	All active workers in the sender's department.	✓ Photos, PDFs, Audio, Video
<code>broadcast all</code> <code><message></code>	ADMIN ONLY	Every registered worker across all church departments.	✓ Photos, PDFs, Audio, Video
<code>broadcast group</code> <code><name> <msg></code>	ADMIN ONLY	Members enrolled in the specified custom broadcast group.	✓ Photos, PDFs, Audio, Video

How to Broadcast Media (Photos, Flyers, PDFs, Voice Notes):

1

Attach Media

In WhatsApp or Telegram, select the photo, PDF flyer, audio note, or video you wish to broadcast.

2

Set Caption

Write the broadcast command directly in the media caption:

```
broadcast unit Meeting
tomorrow by 6 PM .
```

3

Automatic Dispatch

The bot downloads the media buffer, detects mimetype (image/doc/audio/video), and sends both media and caption to all targeted recipients.

4

Delivery Summary

You receive an instant receipt showing delivered count, failed count, and target group.

Enterprise WhatsApp Anti-Ban & Outbound Queue Engine (<3% Ban Risk):

To protect the church's WhatsApp line during peak Sunday attendance spikes, the system routes all outgoing messages through a centralized `WhatsAppQueueService` :

- **FIFO Priority Queue:** Direct 1-on-1 replies receive high priority while mass broadcasts are smoothly serialized at max 20 msgs/min.
- **Humanized Typing Presence:** The bot simulates realistic `composing` (1.2–2.0s) before every message and `recording` before voice clips.
- **Randomized Jitter Delays:** Every outgoing reply pauses for a randomized 3 to 5 seconds (`3000ms–5000ms`) to match human pacing.
- **Dynamic Pastoral Personalization:** Replies dynamically insert worker first names and rotate warm blessings so messages are never flagged as repetitive spam.
- **Link-on-Demand Protection:** Public menus and mass broadcasts avoid blast URLs; links are delivered only when the worker explicitly requests them.
- **Session Credentials Backup:** Auth session credentials (`creds.json`) are bundled into the automated nightly backup sent to Media HOD (+2348101889830).

WhatsApp • Broadcast Progress & Delivery Receipt

🕒 *Dispatching broadcast to Sound members (with 3-5s safe delivery pacing)...*

✅ *UNIT BROADCAST COMPLETED*

-
- Target: *Media - Sound*
 - Delivered: *18 / 18* workers
 - Failed: *0*

7. Custom Broadcast Groups Management (Admin Only)

GROUP COMMAND	SYNTAX / EXAMPLE	ACTION
<code>groups</code>	<code>groups</code>	Lists all custom broadcast groups and current member counts.
<code>add group <name> [desc]</code>	<code>add group youth-leads Youth executive team</code>	Creates a new custom broadcast group.
<code>group view <name></code>	<code>group view youth-leads</code>	Lists all workers enrolled in the specified group.
<code>group add <name> <phone/name></code>	<code>group add youth-leads 08012345678</code>	Enrolls a registered worker into the group.
<code>group remove <name> <phone></code>	<code>group remove youth-leads 08012345678</code>	Removes a worker from the group.
<code>delete group <name></code>	<code>delete group youth-leads</code>	Permanently deletes the custom group.

Part IV: Complete WhatsApp Bot Reference

8. Category Menus & Shortcuts

CATEGORY	SHORTCUT	AVAILABLE COMMANDS	DESCRIPTION
1. Profile & Duty	1 or my duty	info , status , schedule , register , template	View worker profile, leadership badges, DLI records, and duty rosters.
2. Church Info	2 or church	departments , organogram , events , announcements	Church departments, leadership organogram, weekly services, and news bulletins.
3. Giving & Projects	3 or giving	offering , tithe , donations , projects	Church bank accounts for tithes, offerings, and special developmental projects.
4. Leadership Tools	4 or leadership	search , members , pending , accept , reject , broadcast	Restricted to HODs, Unit Heads, and Admins for workforce management.
5. Gallery & Media	5 or gallery	messages , audio , pdf , media , photos , videos	Digital library for sermons, study guides, and multimedia.

9. Complete WhatsApp Commands Catalog

COMMAND	MIN ROLE	SYNTAX / EXAMPLE	RESPONSE SUMMARY
<code>menu</code> , <code>help</code>	PUBLIC	<code>menu</code>	Sends interactive category menu tailored to the user's role.
<code>search <query></code>	UNIT HEAD	<code>search David</code>	Case-insensitive search across name, phone, unit, role, address.
<code>info</code> , <code>status</code>	WORKER	<code>info</code>	Returns full worker profile, designation, DLI/DCA status, HOD details.
<code>schedule</code> , <code>duty</code>	WORKER	<code>schedule</code>	Fetches upcoming department duty schedules, dates, and venues.
<code>departments</code>	PUBLIC	<code>departments</code> / <code>departments media</code>	Lists all church departments, HOD contact info, and active units.
<code>organogram</code>	WORKER	<code>organogram</code>	Displays church structural leadership hierarchy outline.
<code>events</code> , <code>services</code>	PUBLIC	<code>events</code>	Weekly celebration schedule plus special upcoming programs.
<code>announcements</code>	PUBLIC	<code>announcements</code>	Latest news and bulletins targeted to worker's department or all church.
<code>offering</code> , <code>tithe</code>	PUBLIC	<code>offering</code>	Verified Zenith & GTBank accounts for offerings and tithes.
<code>donations</code> , <code>projects</code>	PUBLIC	<code>donations</code>	Active church projects and designated donation payment details.
<code>pending</code>	UNIT HEAD	<code>pending</code>	Lists pending worker registrations with quick approve numbers.
<code>accept <#></code> / <code>a<#></code>	UNIT HEAD	<code>accept 1</code> or <code>a1</code>	Approves pending applicant #1 and adds them to workforce.
<code>reject <#></code> / <code>r<#></code>	UNIT HEAD	<code>reject 1</code> or <code>r1</code>	Declines pending applicant #1 with optional reason note.
<code>members</code>	UNIT HEAD	<code>members</code>	Directory of active workers in unit (Unit Head), dept (HOD), or all (Admin).
<code>make unit head <n></code> <code><u></code>	HOD	<code>make unit head David</code> <code>Sound</code>	Appoints registered worker as Head of Unit with unit broadcast power.
<code>add announcement</code>	UNIT HEAD	<code>add announcement</code>	Sends announcement submission template (Title, Message, Scope).
<code>add event</code>	UNIT HEAD	<code>add event</code>	Sends event submission template (Title, Date YYYY-MM-DD, Time, Venue).

COMMAND	MIN ROLE	SYNTAX / EXAMPLE	RESPONSE SUMMARY
<code>schedule template</code>	UNIT HEAD	<code>schedule template</code>	Sends the copy-paste duty schedule template with date, time, venue, and worker tags.
<code>manage schedules</code>	UNIT HEAD	<code>manage schedules</code>	Lists all active duty rosters created by or assigned to your department/unit with delete IDs.
<code>#deleteschedule <id></code>	UNIT HEAD	<code>#deleteschedule</code> <code>1a2b3c ...</code>	Removes a scheduled duty assignment and cancels remaining reminders.
<code>#checkschedules</code>	HOD	<code>#checkschedules</code>	Manually triggers the 2-day and 1-day reminder engine and returns a dispatch count report.
<code>#stats</code>	ADMIN	<code>#stats</code>	Summary metrics: total workers, active count, department breakdown.
<code>#addworkers</code>	ADMIN	<code>#addworkers <blocks></code>	Bulk imports workers from multi-block registration text.
<code>#birthdays</code>	ADMIN	<code>#birthdays</code>	Manually triggers daily birthday scanner and sends celebration messages.
<code>#backup</code> / <code>backup db</code>	ADMIN	<code>#backup</code>	Generates and delivers an instant DB binary (.db) & full JSON dump to WhatsApp.
<i>File Upload (.xlsx/.csv)</i>	ADMIN	Attach spreadsheet	Ingests Excel/CSV spreadsheet and imports hundreds of workers instantly.

Duty Schedule Roster Management & Automated Reminders

Standard Copy–Paste Schedule Creation Template:

Admins, HODs, and Unit Heads can create duty assignments by sending the standard template below:

```
Title: Sunday 1st Service Duty Roster
Date: 2026-10-12
Time: 07:00 AM
Venue: Main Sanctuary
Department: media
Unit: Livestream & Camera
Scope: unit
Workers: 08101889830, 08144527833
Description: Video switcher, camera operations, sound check, and stream monitoring.
```

Automated Notification & Reminder Engine:

- **Instant Publication:** When published, all assigned workers in the designated scope receive an immediate notification over WhatsApp and Telegram.
- **2-Day Advance Reminder (48h):** Workers receive a friendly reminder 2 days before the scheduled date with venue, time, and preparation guidance.
- **1-Day Advance Reminder (24h):** An urgent final reminder is sent 1 day before the scheduled duty.

Automated Daily Database Backup (Cron Schedule)

Automated Nightly Backup Engine:

The system runs a background cron task every day at **02:00 AM WAT**. It automatically packages the entire SQLite database file (`.db`) along with the WhatsApp authentication credentials (`creds.json`) and a complete structured JSON record dump, delivering them directly via WhatsApp document message to the primary technical administrator (+2348101889830).

On–Demand Trigger: Authorized administrators and `+2348101889830` can also trigger an immediate backup at any time by sending `#backup` , `backup db` , or `backup database` on WhatsApp.

Part V: Gallery, Resources & Coming Soon

10. Gallery & Digital Media Portal

The Gallery portal provides access to digital sermons, study guides, and multimedia content.

SUB-MODULE	TRIGGER COMMANDS	CURRENT STATUS	EXACT BOT RESPONSE TEMPLATE
Sermon Messages (Main)	messages , sermons , sermon	COMING SOON	"Audio sermons, podcasts, and digital PDF study outlines are currently being curated and will be available soon!"
Audio Sermons	audio , podcasts , sermon audio	COMING SOON	"Sunday sermon recordings, worship tracks, and podcast episodes are currently being prepared for direct streaming and download."
PDF Study Guides	pdf , sermon notes , outlines	COMING SOON	"Weekly sermon study outlines, DLI course materials, and monthly devotionals will be available for download shortly."
Media Gallery (Main)	media , media gallery	COMING SOON	"High-definition service photo albums, program recap videos, and media archives are currently in development and coming soon!"
Photo Albums	photos , photo , pictures	COMING SOON	"Sunday service photos, special program galleries, and workforce memories are being organized and will be available soon!"
Video Highlights	videos , video , highlights	COMING SOON	"Service ministrations, choir worship highlights, drama presentations, and recap videos are being processed and will be published shortly."

WhatsApp • Coming Soon Resource Response

Command: audio / podcasts

🌟 *FEATURE COMING SOON!*

📌 *Audio Messages & Sermons*

Sunday sermon recordings, worship tracks, and podcast episodes are currently being prepared for direct streaming and download.

We are working hard to make this feature available in an upcoming update!

🔍 _Type *gallery* to browse other resources or *menu* to return._

Part VI: Telegram Bot & Operational SOPs

11. Telegram Bot Integration

SLASH COMMAND	ROLE SCOPE	DESCRIPTION & INTERACTIVE FEATURES
<code>/start</code> , <code>/menu</code>	PUBLIC	Main interactive grid: 👤 Profile, 🏛️ Church Info, 💵 Giving, 🙌 Leadership, 🖼️ Gallery.
<code>/search <query></code>	UNIT HEAD	Case-insensitive search across name, phone, unit, role in leadership scope.
<code>/info</code> , <code>/status</code>	WORKER	Full profile display with @username, phone, and leadership badges.
<code>/schedule</code> , <code>/duty</code>	WORKER	Department duty schedules and upcoming service dates.
<code>/departments</code>	PUBLIC	Interactive department browser with drill-down buttons.
<code>/events</code>	PUBLIC	Service calendar with inline [🗑️ Delete Event] buttons for organizers.
<code>/announcements</code>	PUBLIC	Church bulletins with inline [🗑️ Delete] buttons for authors.
<code>/pending</code>	UNIT HEAD	Pending registrations with inline [✅ Approve] and [❌ Reject] buttons.
<code>/members</code>	UNIT HEAD	Workforce member directory list.
<code>/broadcast <unit dept all> <msg></code>	UNIT HEAD	Dispatches broadcast notifications to targeted scope.
<code>/stats</code>	ADMIN	Displays workforce summary analytics and department headcounts.

12. Bulk Import Spreadsheet Column Mapping (.csv / .xlsx)

EXPECTED FIELD	ACCEPTED COLUMN HEADERS	EXAMPLE	REQUIRED?
Full Name	Full Name , Name , Worker Name	Brother Samuel Adeyemi	✔ Mandatory
Phone Number	Phone Number , Phone , Mobile , WhatsApp	08012345678 or +2348012345678	✔ Mandatory (Unique)
Department	Department , Dept	media , choir , ushering , protocol , prayer , children , welfare	✔ Mandatory
Unit	Unit , Sub-unit , Team	IT/Livestream , Sound , Camera , Soprano	Optional
Role	Role , Position , Designation	Member , Sound Lead , Coordinator	Default: Member
Birthday	Birthday , DOB , Date of Birth	21 Aug or 1992-08-21	Optional
Marital Status	Marital Status , Status	Single or Married	Optional
DLI / DCA	DLI , DCA , Encounter	Yes or No	Optional
Address	Address , Residence	Block 4, Flat 2, Phase 4, Kubwa, Abuja	Optional
