17. SOP for Heads of Departments (HODs)	19
18. SOP for Heads of Units (Unit Heads)	20
19. SOP for General Church Workers	21

Part VI: Reference & Appendix

20. Bulk CSV/XLSX Import Specifications	22
21. Frequently Asked Questions (FAQ)	23

Part I: System Overview & Permissions

1. System Architecture & Objectives

The **DC Kubwa Workforce Management System** is an enterprise-grade automated bot infrastructure built using **NestJS**, **Prisma ORM**, **Baileys WhatsApp Multi-Device API**, and **Telegraf Telegram API**. It unifies workforce operations across Sunday celebrations, midweek communion services, intercessory vigils, and leadership training institutes.

1

Worker Onboarding

Instant phone/LID device recognition, self-service registration forms & approval routing.

2

Targeted Broadcasts

Dispatches text, photos, PDFs & voice notes to units, departments, or custom groups.

3

Rosters & Events

4

Admin Analytics

Real-time duty schedule tracking, calendar updates, and department member directories.

Live metrics, bulk Excel/CSV imports, automated birthday broadcasts, and role elevation.

2. Role Hierarchy & Access Matrix

Access to bot commands is strictly governed by worker credentials registered in the church database:

FEATURE / COMMAND	ADMIN	HOD	UNIT HEAD	WORKER	GUEST
Profile, Duty Schedule, Info	✓ Full	✓ Full	✓ Full	✓ Own Dept	✗ Prompt
Church Info, Organogram, Giving	✓ Full	✓ Full	✓ Full	✓ Full	✓ Public
Worker Registration Form	✓ Admin Mode	✓ View	✓ View	✓ View	✓ Submit
Approve/Reject Pending Registrations	✓ All Depts	✓ Own Dept	✓ Own Unit	✗ Denied	✗ Denied
Broadcast to Unit	✓ Any Unit	✓ Any in Dept	✓ Own Unit	✗ Denied	✗ Denied
Broadcast to Department	✓ Any Dept	✓ Own Dept	✗ Denied	✗ Denied	✗ Denied
Broadcast to Entire Church Workforce	✓ Global	✗ Denied	✗ Denied	✗ Denied	✗ Denied
Custom Broadcast Groups & Management	✓ Full Control	✗ Denied	✗ Denied	✗ Denied	✗ Denied
Appoint Unit Heads	✓ All Depts	✓ Own Dept	✗ Denied	✗ Denied	✗ Denied
Excel / CSV Bulk Import & #stats	✓ Exclusive	✗ Denied	✗ Denied	✗ Denied	✗ Denied

Part II: Onboarding & Account Linking

3. WhatsApp Multi-Device (LID) Auto-Linking

When WhatsApp users chat from companion tablets or linked desktop clients, WhatsApp conceals the phone number behind a privacy identifier ending in `@lid`. The DC Kubwa Workforce Bot provides auto-linking:

How 1-Step Onboarding Works on WhatsApp:

A worker sends `1` or `onboard` from WhatsApp. The bot immediately extracts the sender's phone number, cross-references active workers, saves the `lid` token to their database record, and unlocks their full department duty roster!

WhatsApp • Onboarding Response

Command: `onboard / 1`

🎉 ***WELCOME BACK, JOHN DOE!***

Your workforce profile has been successfully linked to this WhatsApp account.

- ***Department:*** MEDIA (Sound)
- ***Role:*** Member
- ***Account Status:*** Active ✅

Type `*menu*` to access your duty schedules, announcements, and leadership tools.

4. Telegram 1-Tap Contact Sharing

On Telegram, users do not expose phone numbers by default. The bot leverages Telegram's native **Contact Share Keyboard**:

Telegram • 1-Tap Verification Prompt

Command: `/start or /onboard`

👋 ***Welcome to DC Kubwa Workforce!***

To link your workforce profile and access duty schedules, please share your registered phone number by tapping the button below:

[📞 Share Registered Phone Number]

5. New Worker Registration Workflow

Unregistered guests and new church workers can request the standardized registration template by typing `register`, `template`, or `form`.

WhatsApp • Worker Registration Template

Command: `register / template`

MEMBER REGISTRATION TEMPLATE

Copy, fill in the details and send back:

1. Full Name: John Doe
2. Marital Status: Single
3. Department: Media
4. Unit: Sound
5. Have you attended DLI?: Yes
6. Have you attended DCA?: Yes
7. Phone Number: 08012345678
8. Encounter retreat: Attended: yes
9. Full Address: 123 Kubwa Phase 4, Abuja
10. Date of Birth: 15 June

Tip: You can paste multiple member blocks separated by a blank line.

Department & Unit Strict Validation:

The bot automatically checks if the submitted department and unit exist in the official church database. If a user submits an unknown department or unit, the bot responds with the valid list of units for that department!

Part III: WhatsApp Bot Complete Reference

6. Navigation Menus & Category Shortcuts

The WhatsApp bot provides an interactive category menu organized into 5 intuitive functional modules. Users can reply with the category number (e.g. 1, 2, 3) or type the direct keyword.

CATEGORY	QUICK REPLY	COMMANDS INCLUDED	TARGET SCOPE
1. Profile & Duty	1 or my duty	info, status, schedule, template, onboard	WORKER GUEST
2. Church Info & Bulletins	2 or church	departments, organogram, events, announcements	WORKER GUEST
3. Giving & Projects	3 or giving	offering, tithe, donations, projects	PUBLIC
4. Leadership & Approvals	4 or leadership	pending, accept, reject, members, make unit head	UNIT HEAD HOD ADMIN
5. Gallery & Media	5 or gallery	messages, audio, pdf, media, photos, videos	PUBLIC

7. Complete WhatsApp Commands Catalog

COMMAND & ALIASES	MIN ROLE	PARAMETERS / SYNTAX	DESCRIPTION & BOT RESPONSE SUMMARY
menu , start , help	PUBLIC	None	Displays the main category menu with role-tailored options and tips.
info , status , profile	WORKER	None	Shows full worker profile, leadership designations (HOD/Unit Head/Admin), assigned unit, address, and DLI status.
schedule , duty , roster	WORKER	None	Fetches upcoming duty dates, times, venues, and descriptions for the worker's department.
departments , depts	PUBLIC	[dept_name] (optional)	Lists all church departments, HOD contact info, and active units. If department specified, drills into that department.
organogram , structure	WORKER	None	Displays church structural leadership hierarchy (Pastoral Council, HODs, Unit Heads, Workforce).
events , services	PUBLIC	None	Lists weekly service schedule (Sunday 7:30/9:30 AM, Wed 6 PM, Fri 6 PM) plus upcoming special programs.
announcements , news	PUBLIC	None	Lists current bulletins targeted to the worker's department/unit or church-wide.
offering , tithe	PUBLIC	None	Provides official church bank account details for tithes, general offerings, and building funds.
donations , projects	PUBLIC	None	Lists active church projects (e.g. sanctuary expansion, media equipment drive) and designated payment channels.
gallery , messages	PUBLIC	None	Interactive media portal for digital sermons, audio podcasts, and PDF study outlines.
pending , approvals	UNIT HEAD	None	Lists pending worker registration requests with quick approval numbers (e.g. accept 1).

COMMAND & ALIASES	MIN ROLE	PARAMETERS / SYNTAX	DESCRIPTION & BOT RESPONSE SUMMARY
accept <#> / a<#>	UNIT HEAD	☐	Approves pending applicant, registers them into workforce, and notifies worker automatically.
reject <#> / r<#>	UNIT HEAD	☐	Declines registration request with optional rejection note.
members , workers	UNIT HEAD	None	Displays active workforce roster for worker's unit, department (HOD), or all church (Admin).
make unit head	HOD	☐	Appoints a registered department worker as Head of Unit and enables unit broadcast permissions.
add announcement	UNIT HEAD	None	Returns the announcement creation template for department/unit announcements.
add event	UNIT HEAD	None	Returns the event creation template (Title, Date YYYY-MM-DD, Time, Venue, Description).
broadcast unit	UNIT HEAD	☐ (+ Media)	Sends real-time notification to all workers in the sender's unit.
broadcast dept	HOD	☐ (+ Media)	Sends real-time notification to all workers in the sender's department.
broadcast all	ADMIN	☐ (+ Media)	Sends church-wide broadcast notification to all active workforce members across all departments.
broadcast group	ADMIN	☐	Sends targeted notification to members of a custom broadcast group.
groups	ADMIN	None	Lists all custom broadcast groups and their member counts.
add group [desc]	ADMIN	[description]	Creates a new custom broadcast group.
group add	ADMIN	☐	Adds a worker to the specified broadcast group.

COMMAND & ALIASES	MIN ROLE	PARAMETERS / SYNTAX	DESCRIPTION & BOT RESPONSE SUMMARY
<code>group remove</code>	ADMIN		Removes a worker from a custom broadcast group.
<code>delete group</code>	ADMIN		Permanently deletes a custom broadcast group.
<code>#stats</code> , <code>stats</code>	ADMIN	<i>None</i>	Returns comprehensive workforce analytics (total workers, active counts, department breakdowns).
<code>#addworkers</code>	ADMIN		Parses multiple worker registration blocks in a single text message and bulk imports them.
<code>#birthdays</code>	ADMIN	<i>None</i>	Manually triggers the daily birthday celebrants scanner and dispatches greeting broadcasts.
<i>Document Upload (.xlsx/.csv)</i>	ADMIN	Attached spreadsheet	Automatically ingests Excel/CSV spreadsheets and imports hundreds of workers with detailed error reporting.

Part IV: Telegram Bot Complete Reference

8. Telegram Slash Commands

The Telegram bot is natively integrated with Telegram's quick slash menu () and inline action buttons:

SLASH COMMAND	DESCRIPTION	INTERACTIVE INLINE KEYBOARD FEATURES
<code>/start</code> , <code>/menu</code>	Opens the Main Interactive Workforce Menu.	Grid of inline buttons: Profile, Church Info, Giving, Leadership, Gallery.
<code>/onboard [phone]</code>	Links Telegram account to worker record.	Includes <code>[Share Registered Phone Number]</code> 1-tap button.
<code>/register</code> , <code>/template</code>	Fetches the registration template.	Copyable formatted code block.
<code>/info</code> , <code>/status</code>	Displays detailed worker profile.	Includes quick return button to main menu.
<code>/schedule</code> , <code>/duty</code>	Displays department duty roster.	Shows dates, roles, and duty times.
<code>/departments</code>	Lists all church departments & HODs.	Drill-down buttons for individual departments.
<code>/organogram</code>	Displays leadership structural chart.	Formatted hierarchy outline.
<code>/events</code>	Upcoming programs & service schedules.	Includes inline <code>[Delete Event]</code> buttons for creators/admins.
<code>/announcements</code>	Bulletins & news updates.	Includes inline <code>[Delete]</code> buttons for creators/admins.
<code>/giving</code> , <code>/offering</code>	Bank accounts for tithes & offerings.	Click-to-copy account numbers.
<code>/gallery</code>	Sermon outlines & digital resources.	Category selector for Audio, PDFs, and Media.
<code>/pending</code>	Pending worker registration approvals.	Direct inline <code>[Approve]</code> and <code>[Reject]</code> buttons per candidate.
<code>/members</code>	Workforce member directory.	Paginated view of active workers in unit/dept.
<code>/broadcast</code>	Dispatches broadcast notifications.	Real-time delivery progress and count summary.
<code>/stats</code>	Admin workforce metrics overview.	Interactive breakdown by department.

SLASH COMMAND	DESCRIPTION	INTERACTIVE INLINE KEYBOARD FEATURES
<code>/help</code>	Complete command reference manual.	Interactive category help cards.

Telegram • Interactive Pending Approvals

Command: `/pending`

PENDING REGISTRATIONS – MEDIA DEPARTMENT (2)

1. ***JANE SMITH***

- Phone: 08098765432
- Dept: MEDIA | Unit: IT/Livestream
- Marital Status: Single | DLI: Yes

[ Approve Jane] [ Reject Jane]

2. ***MICHAEL OKON***

- Phone: 08055511223
- Dept: MEDIA | Unit: Sound
- Marital Status: Married | DLI: Yes

[ Approve Michael] [ Reject Michael]

Part V: Role-by-Role Operations Manual

9. Standard Operating Procedure for Church Administrators

1

Bulk Worker Onboarding

Drop `.csv` or `.xlsx` spreadsheets directly into the WhatsApp bot chat. The bot validates columns, creates worker records, and auto-assigns departments.

2

Manage Broadcast Groups

Create focused leadership groups via `add group youth-executives` and populate with `group add youth-executives 08012345678`.

3

Church-Wide Broadcasts

Send urgent alerts with attached flyer images:
`broadcast all Leaders meeting tonight by 8 PM via Zoom`.

4

System Health & Metrics

Run `#stats` to monitor workforce engagement, active member ratios, and department sizes.

10. Standard Operating Procedure for Heads of Departments (HODs)

1

Review Pending Registrations

Type `pending` to see new workers who registered for your department. Review credentials (DLI/DCA/Encounter) and reply `accept 1`.

2

Appoint Unit Heads

Promote trusted workers to Unit Heads: `make unit head Brother David Sound` to delegate unit broadcast powers.

3

Department Broadcasts

Broadcast rehearsals, duty briefings, and meeting notices to all department workers: `broadcast dept Rehearsal starts 4 PM on Saturday`.

4

Department Announcements

Type `add announcement` to publish announcements visible to all workers in your department.

11. Standard Operating Procedure for Heads of Units (Unit Heads)

1

Weekly Unit Duty Alerts

Send duty preparation notices: `broadcast unit Sound team please arrive by 6:30 AM for mic checks`.

2

Unit Member Roster

Type `members` to view active phone numbers and designations of all workers in your unit.

3

Unit Registrations

Type `pending` to review applicants specifically assigned to your unit.

4

Unit Duty Schedules

Type `schedule` to view upcoming service schedules assigned to your unit.

12. Standard Operating Procedure for Church Workers

1

Account Linking

Send `1` or `onboard` upon first interacting with the bot on WhatsApp or Telegram.

2

Check Duty Rosters

Send `schedule` or `my duty` before Sunday/Midweek service to confirm assigned duty times.

3

Profile & Training Records

Send `info` to verify your recorded DLI, DCA, Encounter Retreat, and address information.

4

Church Giving & Resources

Send `offering` for church bank accounts, or `gallery` to download sermon study guides.

Part VI: Reference & Appendix

13. Bulk Import Spreadsheet Specification (.csv / .xlsx)

Church Administrators can upload spreadsheets directly into the bot. The spreadsheet parser supports flexible header naming:

EXPECTED FIELD	ACCEPTED HEADER ALIASES	FORMAT / EXAMPLE	REQUIRED?
Full Name	Full Name , Name , Worker Name	Pastor Emeka Nwosu	✅ Mandatory
Phone Number	Phone Number , Phone , Mobile , WhatsApp	08012345678 or +2348012345678	✅ Mandatory (Unique)
Department	Department , Dept	media , choir , ushering , protocol , prayer , children , welfare	✅ Mandatory
Unit	Unit , Sub-unit , Team	IT/Livestream , Sound , Camera , Soprano	Optional
Role / Designation	Role , Position , Designation	Member , Lead Sound Tech , Coordinator	Default: Member
Birthday	Birthday , DOB , Date of Birth	21 Aug or 1992-08-21	Optional
Marital Status	Marital Status , Status	Single or Married	Optional
Attended DLI / DCA	DLI , DCA , Encounter	Yes or No	Optional
Address	Address , Residence	Block 4, Flat 2, Kubwa, Abuja	Optional

14. Frequently Asked Questions (FAQ)

Q: Why does the bot say "Unauthorized: Leadership Access Only" when I try to broadcast?

A: Broadcast permissions require elevated roles. Unit broadcasting requires `isUnitHead = true`. Department broadcasting requires `isHOD = true`. Church-wide broadcasting requires Admin status. Contact your HOD or Admin if your leadership role needs activation.

Q: How do I broadcast an image, document, or audio note to my team?

A: Attach the image or document in WhatsApp/Telegram, and set the caption to `broadcast unit` `Your Caption Message` (or `broadcast dept ...`). The bot automatically extracts the media file and dispatches both the media and text to all target workers!

Q: What happens if a worker changes their WhatsApp phone number?

A: The worker should notify their Head of Department or Administrator, who can update their phone record in the database. Alternatively, the worker can submit a new registration form or send `link <old_phone>` to migrate their profile.

Q: Can workers use both WhatsApp and Telegram simultaneously?

A: Yes! The workforce management system maintains unified worker records. Once a worker links their WhatsApp (via LID) and Telegram (via Contact Share), duty rosters and broadcast notifications sync seamlessly across both channels.
